

Comfort365 Wired, Modulating Damper

The R80CT wired damper is designed for Comfort365 installations and is sold as a complete damper or the actuator and damper can be ordered separately. The damper is wired to the Comfort365 thermostat using a 3-wire connection to terminals on the thermostat and operates as a modulating damper.

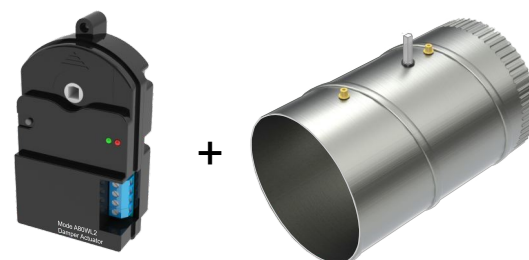

The actuator has been tested to over 9 million cycles and will provide years of quiet and reliable operation.

- Modulating
- 80 in-oz of torque.
- LED indicators for fully open.
- 24VAC, 2.4VA operating, 1VA holding.
- Keyed shaft makes attaching actuator to damper error free.
- 5/16-inch diameter, die cast shafts with nylon bushings for quiet and reliable operation.
- No internal gasket to restrict airflow.
- 5-Year Warranty.

Order as a complete damper

or

Order Actuator and Damper separately.

Ordering Information

Complete Damper Damper Model #	Actuator and Damper Sold Separately				Description

Specifications

Damper Operation

Modulating.

Output Torque

80 in-oz

Input Control

24VAC applied to OPN or CLS terminal.

Operation Time

Fully opens in approximately 2.7 seconds.

LED Indicators

Green LED indicates fully open and red LED indicates fully closed.

Electrical Power

24VAC, 2.4VA operating and 1VA holding.

Actuator

A80MT

Damper Shell

24 gage, galvanized steel.

Damper Blade

Single, galvanized steel blade - no restriction on airflow.

Wiring

3-Conductor Thermostat Cable

Temperature, Operating

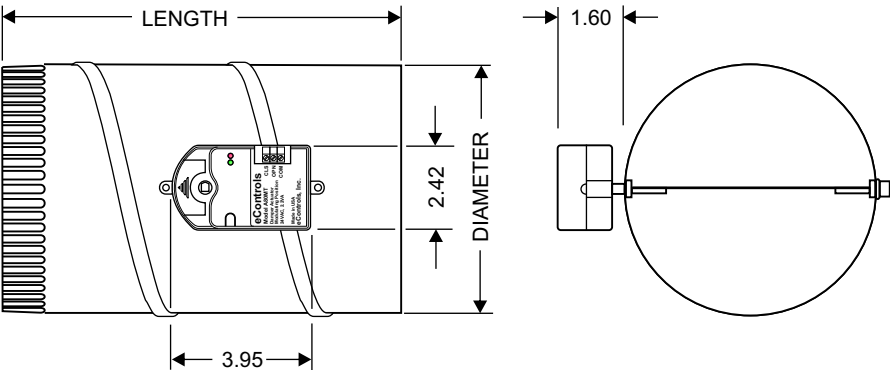

-20° to 175°F.

Maximum Static Pressure

1.0 inch H₂O.

Electronic Motor Control

The A80MT uses electronic control of the motor rather than using the PCB and rotating wiper switches that degrade over time. The A80 has been tested to over 9 million cycles without failure.
